Success will never be a big step in the future. Success is a small step taken just now. – Jonatan Mrtensson

HORSE HEALTH REQUIREMENTS

All horses must have flu, rhino, and tetanus shots within the last 6 months and no later than 7 days prior to the sale. This must be included on your health papers signed by your vet. Each horse must have a negative Coggins test within 6 months of sale and an interstate health paper within 30 days of sale.

HAY, BEDDING, AND FEED

All consignors are responsible for their own feed and hay. First bedding will be provided.

REGISTRATION

The sale requires that all original registrations and transfers be in place before the animal goes into the sale ring. Catalog number of the horse is the sale number. **BUYERS: ALL SALES ARE FINAL.** The seller of the horse guarantees the identity of each animal as it appears on the registration certificate. All horses with ADDHA, KWPN, Morgan, USTA, ASB, and KFPS papers will be transferred to the person indicated on the sales slip. Cost to transfer ownership of the consignments to new owners for these registries will be paid by the seller. All other registration papers will simply be passed on to the buyer without being transferred. Title passes at the fall of the auctioneer's gavel at which time all risks and responsibility for the horse passes to the buyer. **No substitutes for cataloged horses.**

WARRANTIES

Ages, heights, markings, and physical conditions are approximated and not guaranteed. It is the responsibility and obligation of the buyer to examine the horse before he bids as all sales will be final. In case typographical errors or other errors are discovered, the auctioneer or pedigree reader will announce them, which will take precedence over the printed catalog. Buyers are therefore cautioned to pay attention to the announcements.

GUARANTEES

No guarantees whatsoever, expressed or implied, are made by the sale committee, the auctioneers, pedigree readers, bid spotters, or anyone associated with the National Breeders' Showcase Auction (NBS), as to title, quality, unsoundness, or soundness of any consignments. Presentations given in writing by the consignor to the sale committee will be announced at the time of the sale as though by the consignor. Any claims made based upon said presentation, guarantees, or omissions shall be made against the consignor only and not the sale committee or any persons related to the sale. Seller's statements of soundness or unsoundness will be announced at sale.

LIABILITIES

Everyone is urged to use caution when attending the sale. The National Breeders' Showcase Auction, Beachy Auctions and Real Estate, Inc. all members of the committee, and all those associated with the sale in any way shall not be liable for any injuries sustained by anyone attending the sale. All parties entering the grounds where the sale is held do so at their own risk and further agree that the organization responsible for the sale is hereby released from any liability or responsibility for any injuries sustained by them during the attendance of the sale and its related activities from any case whatsoever. Notice: Under Indiana Law an equine professional is not liable for an injury to or the death of an equine activity participant that results from an inherent risk of the activity.

How you see your future is much more important than what happened in your past. – Zig Ziglar

TERMS

All consignments must have an attractive new halter and lead rope, otherwise the sale committee will supply one and charge the seller for the cost. Leather halters are requested but not required. No horse will be allowed to leave the grounds without a checkout slip indicating full payment. All horses must be removed from the barns by midnight Friday evening, the day of sale, unless other arrangements are made with the sale committee. All sellers are responsible for their horses up until the time that the gavel falls, after which the buyer is in full responsibility.

The sale committee of the NBS reserves the right to reject any horses for any reason including, but not limited to: unsoundness, poor condition, and improper documentation of registration or health papers.

PAYMENT

Horses must be paid before leaving auction grounds via cash, approved check, or any major credit cards with a 5% premium. All online sales will incur a 5% premium.

COMMISSION

\$300 per horse. No sale \$150. **No substitutes for cataloged horses.**

ATTENTION CONSIGNORS

Experienced handlers will be available to present your horses in the sale ring. This is optional. Please let the office know at check in if you prefer to present your horses yourself.

A blanket will be provided for each foal upon arrival at the sale. This blanket is to go with the foal when it is sold.

Consignors, the sale committee appreciates the fine horses you have trusted us to market and the time and effort you have put in to prime them. As a token of our appreciation, we would like to provide you with a color photo of each of your consignments. Please pick these up at the photographer's booth.

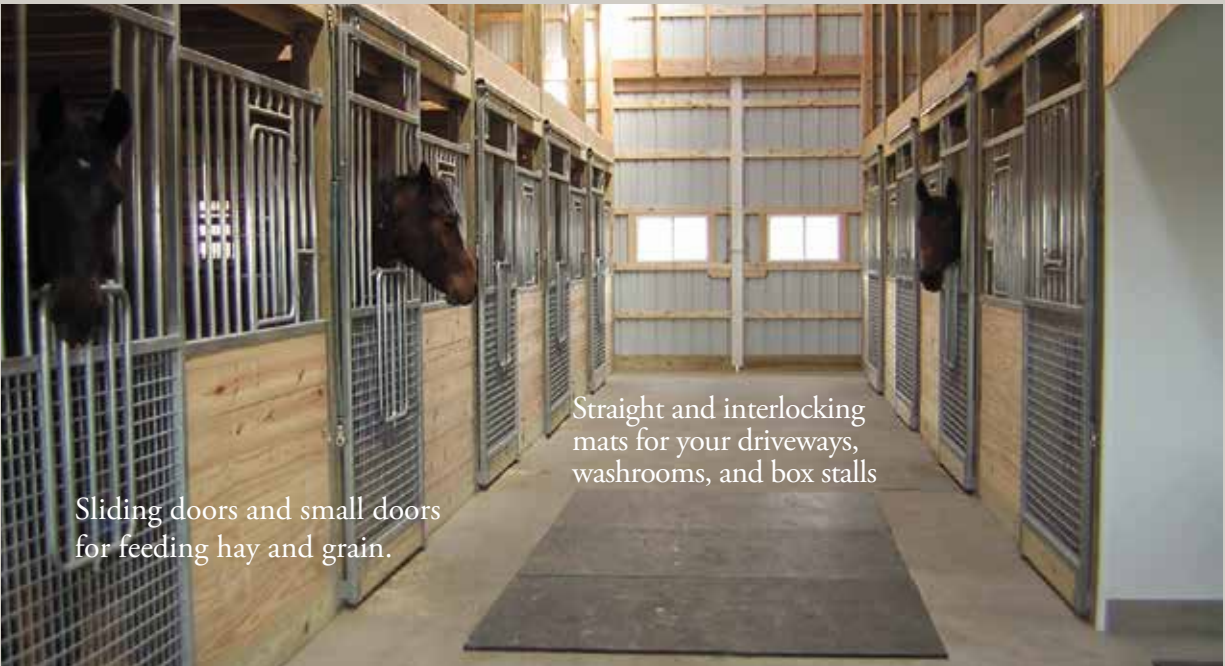

CANADIANS

There will not be a federal vet at the sale. However, if you purchase horses, they may be stalled at Pleasant Ridge Equine for \$10 a day until the necessary paperwork has been completed.

Thank you
to all of our consignors
and advertisers!

Gates are made the full width of your box stall for easy access with horses and easy cleaning.

Sliding doors and small doors for feeding hay and grain.

Straight and interlocking mats for your driveways, washrooms, and box stalls

Poly Horse Mangers for Hay & Grain

Hay & Grain feeders mount on walls or hang on gates.

These and all products are made of heavy gauge galvanized steel tubing for strength and rust resistance.

Picking A Winner

One of the first things I look for in the saddle type horse is attitude. I ask myself if this horse likes himself. Without that sense of self, a horse can have all of the physical attributes for the jobs of a saddle type horse and, in the end, come up short in the show ring. In my experience, with the correct attitude you can train around many of the things that might be lacking on a horse's physical or conformation details. Obviously, the conformation of the saddle type horse is extremely important and can certainly make training the horse for harness or under saddle divisions easier, but without that "inner spring" that sets them apart from the others, a perfectly conformed horse can come up short when put in the ring for competition. The saddle type horse must always march bravely forward with self-confidence and a bit of arrogance.

In all horses, I look at the eyes and the expression that they give to you. A horse in my experience tells you a lot by the look in their eye. The eye is a big part of whether or not that horse has a pleasant or attractive head. This particular statement might create questions because of performance being the utmost goal for the saddle type horse. But there are many Thoroughbred bloodstock agents who use the head in evaluation of race horses. In my opinion, if the horse has a head that is common, he will perform and act common.

The next important factor of the saddle type horse is balance. Does his hip, loin and back balance out with his head, neck and shoulder? I feel that there are horses who get a lot of press because of a fancy neck and shoulder; who have front end motion when they are young but when put to the test fail to perform with ease because the hind quarter was overlooked. The hind leg must be evaluated and absolutely has to have the proper angulation. I describe this by simply saying; "when the horse takes a step with a hind leg, the hocks need to point to the ground". When the horse steps off, you want to see the foot land up under the girth area and not be landing just under the stifle. That foot placement will determine if the horse will go forward and elevate, or just pull themselves around by over use of the shoulder because the hind end lacks impulsion. This is the kind of movement that will create sore backs and an uneven stride. The front legs should be set well under the shoulder creating room for the elbows to move freely.

You never want a horse that is tied in at the elbow, because this is often a horse that will only trot with the lower leg and move too quickly and can be known to interfere travel by hitting themselves with their feet at the knee or cannon bone. Horses that are conformed this way often have large splints which can cause lameness. With both front and hind limbs, I like to see a horse that has a shorter cannon bone than forearm or gaskin. The front legs should be conformed correctly and not splay out or toe in. However, this would be a problem for me only if it is extreme and would result in the horse moving too close. I am far more concerned over the hind leg and overall balance than I will ever be over front limbs.

My final thoughts on the saddle type horse are that their movement should seem easy for them and they should be flexible; flexible at all gaits in all parts of their body not just the front end. Fluid movement on a horse that looks like his job is easy and enjoyable will always be a winner.

Here's Johnny

A very sensible stallion with some serious drive and pedigree.

He is a maternal brother to the great trotting sire Cantab Hall, which produced 103 in 1:55 and faster.

His first foals will be born in the spring of 2017

Johnny's foals are Ohio eligible. He will be standing his second season at Parkside Stables in Burton, Ohio. They can be reached for more information at: 330-606-7609
