10:00 a.m. All Black Female Sale

R.A. BROWN RANCH

The Legacy

Dear Friends,

R.A. Brown, my great-great grandfather put our family in the seedstock business with Angus bulls, horses, and mules at Calvert, TX, back in the 1800's.

At the end of the cattle drive era, my great grandfather, R.H. Brown, served ranch families throughout his lifetime as the managing partner of a commission company in the Fort Worth Stockyards. In 1903 he bought our original headquarters near Throckmorton and brought the first Hereford cattle and our family to Throckmorton County.

R.A. Brown Sr., my grandfather, was in his early 20's when his father passed away. So he came home from Texas A&M College to run the ranch where he would invest the rest of his life raising and selling registered Hereford bulls and Quarter Horses. He risked all he had to survive the drought of the 50's, but he kept the ranch in the family and the family in the ranch.

R.A. "Rob" Brown Jr., my dad, was the first Brown to graduate from college. While at Texas Tech he learned the advantages of crossbreeding and the benefits of hybrid vigor to more efficiently produce better beef. Dad worked under my grandfather for seven years before he convinced him to step out of his comfort zone, break tradition and raise something other than the most popular breed of that era. Dad was 29 years old when he unexpectedly lost his father to a massive heart attack. During their last two weeks together they found more common ground as they made long term plans for the future of the ranch. Most importantly, Dad received his father's blessing to go and be progressive.

Dad has always been a true visionary and he has been the most progressive cattleman I know. I was five years old when he changed from our traditional Private Treaty Bull Sale and instead hosted our First Annual Production Sale. We have worked together as a family at every one of our sales over the years and we are looking forward to this one with great anticipation.

Mom and Dad have encouraged each of us to go and be progressive and to use our God given gifts and abilities as we pursue our dreams and raise our families. They provided an opportunity for each of us to come back to the ranch, but it was not a "birth-right," it was a "work-right". Coming back we had to expand the family business in order to make enough room to feed another family. There are four of us children in the 5th generation of Browns: Betsy, Rob A., Marianne and myself. We are all blessed with wonderful spouses and families of our own. We all came back and worked for the ranch and made joint ventures with Mom and Dad to grow the business as we diversified more into farming, stocker cattle, commercial feedlots, more commercial cows, hunting/wildlife enterprises and more.

Dad has dedicated his entire life to working on this ranch and has never drawn a paycheck. But he still comes out to the ranch daily to check on everything and make sure we are doing things right. I turned 44 this year and I count it such a blessing to have been able to work side by side with my parents and siblings for the past 20 years. I must admit it was quite a shock when Dad told us that he & Mom had decided it was time to divide up the ranch. They said while they were enjoying good health, they wanted to see what we could do with it. We cherish this opportunity and are thankful from an estate planning perspective that we have been able to divide the ranch while keeping peace and love in the family. Mom and Dad have given each of us their blessing to go and be progressive.

That leads us to this dispersal and the question that so many have asked. Why disperse Rob and Peggy's life work of building such an amazing set of registered breeding cattle? Betsy and Jody, Rob A. & Talley, Marianne and Todd have always raised commercial cattle. That is what they enjoy, they are really good at it and they plan to continue raising commercial cattle on their part of the ranch. So we decided it would be best for Mom and Dad's Legacy to have the dispersal sale and share the fruits of their labor with our lifelong friends and neighbors in this industry. Kelli and I share Dad's passion for raising superior registered bulls for commercial cattlemen. So the family decided to let Kelli and I gather embryos from the best females in this herd and put them into commercial recipients in order to continue the genetic lines that have been in our family for over 100 years. We have just about the right number of pregnant recipients to stock our part of the ranch. This is a complete and total dispersal of all registered females from the R.A. Brown Ranch and from Kelli and I's partnership with the ranch known as Brown Family Genetics. But this is not the end of the book, just the beginning of a new chapter. The family gave Kelli and I their blessing to carry on the R.A. Brown Ranch name and brand. So we plan to host the 40th Annual R.A. Brown Ranch Bull Sale the 2nd Wednesday in October 2014, and continue this wonderful family tradition of providing the best genetics and service we can to you our customers.

Different than any other dispersal that I have ever seen, our family has chosen to back all of these cattle with our traditional guarantees. We are planning this dispersal to be a special event that you don't want to miss. We personally invite you to be here as our honored guest and we hope you can come. This is truly an opportunity of a lifetime so please make plans to come and celebrate with us. You will be glad you did.

Sincerely,

Donnell Brown

ACCOMMODATIONS: Make your reservations today. Throckmorton has limited availability. Please see page 3 for recommended accommodations.

AIR TRANSPORTATION: Wichita Falls: 75 miles, Abilene: 75 miles (both are usually less expensive than DFW) Dallas/Ft Worth: 150 miles. For those with private planes, Throckmorton has a lighted, 60' x 3700' runway. Olney is 30 miles away and has three 5100' runways. The N/S is lighted. They also have E/W and fuel availability 24 hours. Please call us in advance and we will make plans to pick you up at Olney or Throckmorton airports.

HEALTH: 1) To insure that our cattle are healthy and to provide you with healthy cattle, we have a strict vaccination, herd health and biosecurity protocol. 2) INTRASTATE HEALTH PAPERS will be provided for all animals in this sale. 3) All cattle have been VACCINATED to prevent Blackleg, IBR, PI3, BVD, BRSV, Vibrio, Lepto and Pinkeye. All females have been calfhooed vaccinated to prevent Brucellosis. R.A. Brown Ranch is Certified Brucellosis Free Herd #4808. 4) All bulls in this catalog are CERTIFIED AS VIRGINS unless otherwise noted that they were used in our program. All non-virgin bulls have TESTED NEGATIVE for Trichomoniasis (Trich) within 20 days of the sale. We have

tested every herd bull for many years as a means of protecting ourselves and you, our customers. 5) INTERSTATE HEALTH PAPERS will be provided for animals going to states that only require the specifications listed above. Any additional testing (i.e. TB, Trich on Virgin bulls over 12 months of age etc.) will begin after the sale and those interstate health papers will be ready after all testing is completed. If you plan to haul your own cattle after the sale across the state line, please check with your state veterinarian to make sure your state will receive cattle from us without additional testing. Please see page 166 in the back of catalog for our detailed vaccination protocol.

FERTILITY GUARANTEE: All bulls and females are guaranteed breeders as described in the "Terms & Conditions" at the back of this catalog. None of us can afford a bull not doing his job. Bulls can become temporarily infertile due to fever, excessive heat, injury, diet (whole cottonseed or poor diet), etc. We have experienced this with bulls we purchased with breeding soundness exams and took for granted that they were still ready to breed cows. It is several months until breeding season and we recommend that you fertility test all your bulls 30 days prior to each breeding season every year. These bulls have not been fertility tested because it does not prevent a bull from becoming temporarily infertile during the time before you use him. We tested all bulls a few years back, finding only 1% of our bulls that did not pass the breeding soundness exam. Over the past 38 years, we have had less than 1% returned. If you find a bull infertile please contact us immediately. After a second failed test, at least two weeks after the first, we will replace the bull or give you credit, according to the "Terms & Conditions" in the back of this catalog. Getting your cows pregnant is a high priority for us.

DELIVERY of BULLS and FEMALES: Please see the detailed information on our Delivery Service, pages 10-11.

INSURANCE: Livestock insurance will be available on Sale Day by David Miller, representing American Livestock Insurance Co. 817-732-1872.

FUTURE CARE: We appreciate your investment in R.A. Brown Ranch genetics and want to make some recommendations to help you protect your investment. The stress of the sale, hauling, and relocating these animals can weaken their immune system; therefore, keep them up close so you can check them daily for a couple of weeks. We recommend vaccinating for Vibrio/Lepto and fertility testing your bulls 30 days prior to the breeding season each year. 18 month old bulls can be used very effectively when turned out with one cow/month of age (18 months - breed 18 females). Remember they are still growing and losing their baby teeth so they may need some extra care after their first breeding season.

MORE INFORMATION: We want you to have all of the info you need to make the best decisions. To view more information, we have included registration numbers on the registered animals so that you can look them up on the web, or you can visit our website at www.RABrownRanch.com to sort the animals and/or view their data in spreadsheet form. If you want more information about these bulls and/or females than what is in this catalog or on the web, please call and ask prior to Sale Day. In an effort to simplify the process, we have included the information in this catalog that we believe to be the most useful tools in describing genetic merit of each animal for economically relevant traits. To contact Donnell or Kelli Brown, you may call the ranch at 940-84-0611 or email us at info@rabrownranch.com. To contact Donnell or Kelli Brown, you may call the ranch at 940-84-0611 or email us at info@rabrownranch.com.

BIDDING INFORMATION

SIGHT UNSEEN BIDDING: (Form is on Page 167) If unable to attend, feel free to send bids to the Brown family here at the ranch, Auctioneers, or Publication Representatives. We handle many sight unseen bids and have very satisfied customers who feel confident in using our service. We prefer to have plenty of time to discuss your needs over the phone prior to sale day so that we may select the cattle that best fit your specs. Those bids are handled with total confidentiality and we buy those animals just like you were sitting ringside with us. We also guarantee the cattle so that if they don't meet your expectations, you just send them back to us! No questions asked.

SUPERIOR PRODUCTIONS: For customers who are unable to attend but would like to bid on animals, we are pleased this year to offer the option of bidding through Superior Productions. See information below.

HOW TO PARTICIPATE AS AN ABSENTEE BUYER

We have made preparations to bid and buy livestock through Superior Productions' "Call or Click-To-Bid" service for those unable to attend in person on sale day. Please note that all of the lots in the sale will also be available for viewing online prior to sale day at www.superiorlive.com.

HERE'S HOW IT WORKS

Turn in Bids Over the Phone. This is our traditional method of buying livestock. To get started simply go online to www.superiorlive.com and click on the tab titled "REGISTER FOR YOUR BUYER'S NUMBER". Print the registration form, fill it out and fax it in (817/378-3380) to Superior Productions with a signature on it. You can also mail it in to the address provided on the form. Upon receipt of this information Superior will call you with a buyer's number and the bid line phone number that you will use on sale day to place bids over the phone.

Click-To-Bid. This is Superior's newest way to buy cattle! Registration is free, but you must become a member of www.superiorclicktobid.com to sign up.

Becoming a member is easy – just go to the homepage of www.superiorclicktobid.com and follow the outlined steps to get started. Input your information and select a username and password. You will receive an e-mail confirming you are a member. From that point forward you just have to sign in and select the sale you would like to register for, and once approved by the ranch you will receive an e-mail confirming which sale you are now registered for.

Viewing the Auction. The sale will be broadcast via satellite on Dish Network channel 231 and DirecTV channel 345. The sale will also be broadcast live on the internet at www.superiorclicktobid.com – just go to the home page and select the auction. Remember you can call in to bid whether you watch on the TV or on the internet, but you must be a member of www.superiorclicktobid.com to "click-to-bid". Your computer must have Flash Media Player installed to view the auction.

Bidders who are successful in making purchases via satellite or internet will be contacted by the ranch after the sale to settle payment and make shipping arrangements.

Watch & bid online for FREE at

DVAuction

Broadcasting Real-Time Auctions

Can't make the sale? Bid from home with DV Auction's "real-time" internet bidding service!

Buying online is as easy as 1,2,3...

1. Create an account at www.dvauction.com under the "register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make your purchases!

After the sale, contact the sale manager or owner to arrange transportation and payment. **High speed internet** is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles? During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.

COOPERATING HERDS

Again this year we have several bulls in the sale from cooperating herds. We have hand selected these herds to help us increase the number of bulls in our sale while maintaining the strong quality we demand in our breeding program. These herds are similar to ours in 1) the strength of their genetics, 2) the strictness of their herd health program and 3) the integrity of the data reported. These bulls come with the same breeding guarantee and customer service you have come to expect from the R.A. Brown Ranch. If you have trouble with one of our bulls, then let us know here at the Brown Ranch because we handle all of the customer service. All of these bulls came here after weaning to be grown and developed with our bulls under the same management program. You can buy these bulls with confidence. The bulls are denoted with the following herd codes including the RAB and BFG for bulls raised here in our own program. One of the blessings that has developed from this aspect of our business is the relationships we have developed with these fine people.

3K & 3KC — 3K Land & Cattle Co., Judy Kay Ferguson, Kyle & Brenna DeVoe, Justin, TX (Red Angus)

17AA & AA — Double A Cattle Co., Kim & Marsha Alexander, Roddy Alexander, Justin & Tamara Alexander Roscoe, TX (Red Angus)

Wood & MEW — Wood Red Angus, Mike & Kathryn Wood, Stilwell, OK (Red Angus)

Retained Interest In Bulls

OWNERSHIP - We are selling full possession, full salvage value and 1/2 revenue-sharing semen interest in every bull in this sale. This means the bull is totally in your control in how you want to handle him plus you get 100% of the salvage value of the bull. We are retaining 1/2 revenue-sharing semen interest in every bull in this sale. This simply gives us the right to half of the semen sales revenue from the bull if at some time in the future, semen sales become a possibility. If you sell the bull to anyone else, R. A. Brown Ranch retains our semen interest. If you wish to buy a bull in this sale and would prefer that we did not retain a semen interest, then please talk with us about it prior to the sale and we will consider selling the bull(s) to you without us retaining an interest and make that agreement in writing prior to the sale. The buyer may elect to purchase as much additional semen interest as you desire by paying the additional pro-rated amount. For example you can purchase 2/3 or 3/4 semen interest by paying an additional 343% or 50% of the final bid price respectively.

If a buyer is not interested in marketing the semen from a bull then R.A. Brown Ranch has the right to collect a semen bank on the bull at our cost and the buyer's convenience. This That semen bank would be 100% owned by the R.A. Brown Ranch for our use or marketing.

EXCLUSIVE SEMEN MARKETING RIGHTS - The buyer may elect to purchase exclusive semen marketing rights on any bull in this sale by paying double the final bid price on the bull at the time of the sale. In the event that the buyer elects to purchase exclusive semen marketing rights, then R.A. Brown Ranch retains the right of first refusal on the purchase of natural service rights of the bull if the original buyer decides to sell the natural service rights and or possession of the bull anytime during his lifetime.

REALISTICALLY SPEAKING - It is unlikely that large amounts of semen will be sold from very many bulls. However, the reason we are keeping an interest in every bull, is that we want to keep it simple and we have great bulls scattered throughout the sale. The bulls that do develop a market for large amounts of semen can be very financially rewarding; therefore, as a breeder of some of the best seedstock in the industry, we want to share with you in these bulls. Even bulls sold to commercial herds may become popular at a later time, especially if carcass data is collected on their calves. We want to be a great partner with you.

SEMEN RIGHTS - Buyers receive semen rights proportional to the interest purchased. Therefore if you purchase a 1/2 revenue-sharing semen interest then you are entitled to 1/2 of the semen collections at cost provided that you indicate that you want semen prior to collection. If you choose to collect semen from one of these bulls as an "insurance policy" for your own use, that semen is 100% yours, but before any semen is collected on any bull in this sale, R. A Brown Ranch must be notified.

FURTHER TERMS IN THIS REGARD - See Sale Terms and Conditions on page 163.

Riding
for the Brand

A CENTURY OF HERITAGE

Robert Alexander Brown was a native of Virginia, born in Culpepper County, near Brandywine Station, February 22, 1833. He grew up working with cotton, cattle, horses and mules. Upon coming to Texas at age 17 he located in Galveston and was employed as a salesman in a mercantile business.

When the Civil War broke out, he returned to the family plantation in his native state and county and volunteered defending the cause of the Confederate States. He was a member of the famous Black-Horse Cavalry

of Virginia under Jeb Stuart and as a soldier served with distinguished bravery in various battles defending the Confederate capitol until his capture in the Valley of the Potomac in 1864.

After the Civil War, he was released and returned to Galveston where he entered the cotton export business and became a commission merchant. These ancestors farmed cotton and traded mules back and forth from Missouri.

They later moved to Calvert, Texas where

Robert Herndon (R.H.) Brown, the oldest son, was in the cattle business. Records show he sold Angus bulls in the 1890s and even sent a boat load of cattle to Cuba in 1895.

R.H. Brown moved to Jack County, Texas where he had a small ranch and his son R. A. Brown was born in 1902. When the Fort Worth Stockyards opened in 1903, R.H. Brown sold the ranch and bought an interest in a cattle commission company there. That same year he started buying land in Throckmorton County.

1906 — R.H. Brown brought the first registered Hereford cattle to Throckmorton County and started selling bulls there. R.A. Brown grew up working at the Fort Worth Stockyards and during the summers worked at the ranch in Throckmorton.

1917 — At the age of 15, R. A. Brown enrolled in school at Woodson, TX so that he could stay and help at the ranch through the severe drought. Feed was scarce and cows were thin going into that extremely cold winter and cows began to die. R. A. helped skin cows (instead of going to school) and hauled wagon loads of hides to Abilene, some 60 miles away, trading them for cotton seed cake to feed the remaining cattle.

R. A. Brown

his sisters to deed their parts of the ranch to him so he could borrow enough money to save it. (He managed to get the debt paid off in the 1940's and deeded their land back to them.)

1931 — R. A. Brown marries the former Valda Thomas whose parents were also ranchers, Mr. and Mrs. D.B. Thomas.

1934 — D. B. Thomas dies and R. A. Brown assumes management of the Thomas Ranch as well as the Brown Ranch raising commercial as well as registered Hereford cattle and selling Hereford bulls.

1936 — R. A. Brown Jr. (Rob) was born and grew up working on the ranch.

1950-57 — Ranch destocks from 900 to 125 head of cattle on 18,000 acres because of severe drought.

1957 — R. A. (Rob) Brown Jr. and Peggy Donnell marry. The Donnells, a long time ranching family, settled in neighboring Young County in 1876.

1958 — After graduating from Texas Tech Rob and Peggy return to Throckmorton to work with his parents on the ranch. Their first daughter, Betsy, was born.

R. A. Brown, Jr. "Rob"

1960 — Rob A. Brown was born. Rob had the foresight to start a mesquite woodchip company in Throckmorton and started marketing it for cooking to give that unique mesquite flavor.

1965 — Rob & R. A. agreed to start crossbreeding the commercial Hereford cows with Brown Swiss. A week later R. A. died from a sudden heart attack. Rob closed the wood company and took over management of the ranch.

1967 & 1969 — Marianne & Donnell Brown were born. The crossbred calves were 100 pounds heavier at weaning, but were discounted in the market place because of the brindle, gray and dun color.

1970 — Simmental took the place of Brown Swiss in the crossbreeding program which cured the color and marketing problems, while keeping the 100 pounds of additional weaning weight and also improving

percentage calf crop. The herd was bred up to purebred Simmental and started selling Simmental & Simmental Hybrid bulls.

1974 — Rob serves as the 4th President of American Simmental Association.

1975 — First Bull Sale - 115 bulls averaged \$578/bull. Top selling bull brought \$1175.

1976 — Simbrah was added to the herd for more heat tolerance and hybrid vigor to help customers in areas needing that factor.

1981 — Betsy Brown Bellah & her husband Jody come home to the ranch to manage the accounting, the commercial cow herd and expand the wheat farming division of the family business to 5,000 acres to be used in developing the growing bulls and replacement heifers from weaning to yearling.

1987 — Red Angus was added to the program with the purchase of Roy Beeby's entire crop of Replacement heifers. An airplane load of Senepol cattle were imported from the Virgin Islands to be used in a planned crossbreeding program to bring heat tolerance and hybrid vigor without Brahman influence. Added benefits were better dispositions, quality grade and tenderness.

1988 — The entire Greenway Angus herd (400 cows) was purchased under the advisement of Dr. Bob Long who had been consulting for them to build the Dynamo based herd. Big cows were in demand and after bringing the cows to Texas the 100 daughters of Pine Drive Big Sky were sold which almost paid for the entire herd.

1989—The composite Hotlander™ herd was started under the advisement of Dr. Keith Gregory at the Meat Animal Research Center (MARC) & Dr. Ronnie Green at Texas Tech. Angus (red & black), Simmental, Brahman and Senepol were blended to create the ultimate hybrid for hot environments.

1990 — Rob A. Brown with his wife Talley, in partnership with Rob & Jody

Bellah bought an interest in a commercial feedyard where feedlot and carcass data was gathered in testing of the ranch's top sires.

1993 — R A Brown Ranch honored as the Seedstock Producer of the Year by the Beef Improvement Federation. Donnell & Kelli Brown graduate from college and come back to the ranch to help manage the seedstock business.

1995 — Rob Brown serves as President of American Quarter Horse Association. Marianne Brown McCartney and her husband Todd return to the ranch to manage one of the seedstock cow herds.

1997 — The Ranchers Renaissance (RR) alliance was born and became one of the most successful alliances throughout the next decade. RR started with a meeting at the ranch when Rob & Donnell unveiled their vision to a group of people invited from all segments of the beef industry.

1997 — Cooperator Herd program started in order to fill the growing demand for more bulls. The Brown Gardiner Angus partnership was formed to add a franchise herd of Gardiner Angus Genetics. That same year a trade was made with Jim Leachman for our pick of 17 females from his Elite Nucleus Red Angus herd in exchange for his pick of 17 head from our Quarter Horse mares and foals.

1998 — An intensive Embryo Transfer program was started to help multiply the superior RAB genetics.

1998-2000 — All cows on the ranch were dry-lotted and fed all winter, due to severe drought conditions.

1999 — R. A. Brown Ranch is one of nine ranches to be named NCBA Cattle Business of the Century and later that year, Rob was honored as the nation's top rancher with the Golden Spur Award.

2000 — 75% of the ranch was unusable because of drought drying up drinking water supplies.

2001 — Just before the drought breaks, R. A. Brown Ranch has a mature cow herd dispersal of their Angus and Red Angus cow herds. Embryos were implanted in commercial cows to rebuild the elite nucleus herd. The new AI and Bull Development Center was also constructed.

2002 — Browns continue their intensive embryo transfer program and start selling every 3 year old 1A Red Angus female every year.

2006 — Bull sale cancelled. Over 500 bulls were sent to slaughter. All of the registered Angus cow herd was sold to Three Trees Ranch in GA. Bred heifers, weaned heifers and embryos were kept to rebuild the Angus herd.

2007 — Rob Brown honored with the Beef Improvement Federation's Pioneer Breeder Award.

2008-2010 — Kelli Brown elected to serve as the National President for the Red Angus Association of America.

July 5, 2009 — Casey Zboril was hired to take the reins as Ranch Foreman, continuing the heritage of managing over 1000 seedstock cows at the RAB.

Summer, 2011 — Due to severe drought conditions, some of the registered cows were shipped to lease country in Montana.

October 10, 2012 — Brown JYJ Redemption Y1334 sells for \$140,000 at the R.A. Brown Ranch 38th Annual Bull, Female, & Quarter Horse Sale.

October 9-11, 2013 — The R.A. Brown Ranch Legacy Sale, The Complete & Total Dispersal, and 39th Annual Bull Sale held at the historic, R.A. Brown Ranch.

38th Annual Bull & Female Sale

LOAD OUT INFORMATION

DELIVERY

We will deliver at least 80% of the distance to your operation. We will not drop at your ranch except on purchases totaling over \$40,000. Preferred drop points are not guaranteed and are subject to change depending on load routes. We try hard to get the cattle to everyone as safely, timely and cost effectively as possible.

FREE DELIVERY (CATTLE)

We are offering free delivery to our "preferred delivery points" within the continental US for each buyer that purchases at least \$15,000 in bulls or \$30,000 in any combination of bulls and females in this sale. For all cattle purchases totaling less than these amounts, we will provide delivery service to our "preferred delivery points" at the costs outlined below. Please inform us when you check out that you are hauling your own or that you would like us to coordinate the delivery of your cattle. Just fill out a Delivery Information Sheet in the back of the sale day supplement and give it to the clerk when you pay out. Please note the cost of delivery associated with each delivery point. These charges will be reflected on your invoice on a per head basis.

LOAD-OUT SERVICE (for all cattle)

Many people prefer to haul their own cattle, and we are glad to help make this process as quick and easy as possible. If you choose to haul your own cattle, we

can load them any time during the day on Wednesday, Thursday, Friday or on Saturday morning. We can load your cattle during the sale but you must first pay out. Then bring the extra copy of your bill of sale (that you will receive at check out) in order to load out. All bulls will be loaded at our Bull Development Center and load out area located 1/2 mile west of our sale facility. All females will be loaded out on the southeast corner of our headquarters pens where we host the sale - near the big red fuel tanks. We do not have lights to load after dark. All animals that are to be hauled by the customer will be cared for at no cost through noon Monday, October 14, 2013. Starting at noon Saturday there will be a charge of \$6/head/day for all remaining animals that were not designated for us to deliver. There will be no charge for feed and care of animals that are designated for us to deliver when you check out unless the delivery is delayed for any reason by the buyer. We can have Interstate Health Certificates for all animals that are going to states that accept cattle from our Certified Brucellosis Free herd #4808 without additional testing. The few bulls in this sale that are not virgin bulls are identified as such & have a Trich negative test prior to the sale. However, if your state requires additional testing like TB or Brucellosis, or Trick for virgin bulls, then that will be done the week after the sale and we can provide Interstate Health Certificates as soon as we get results back from the lab.

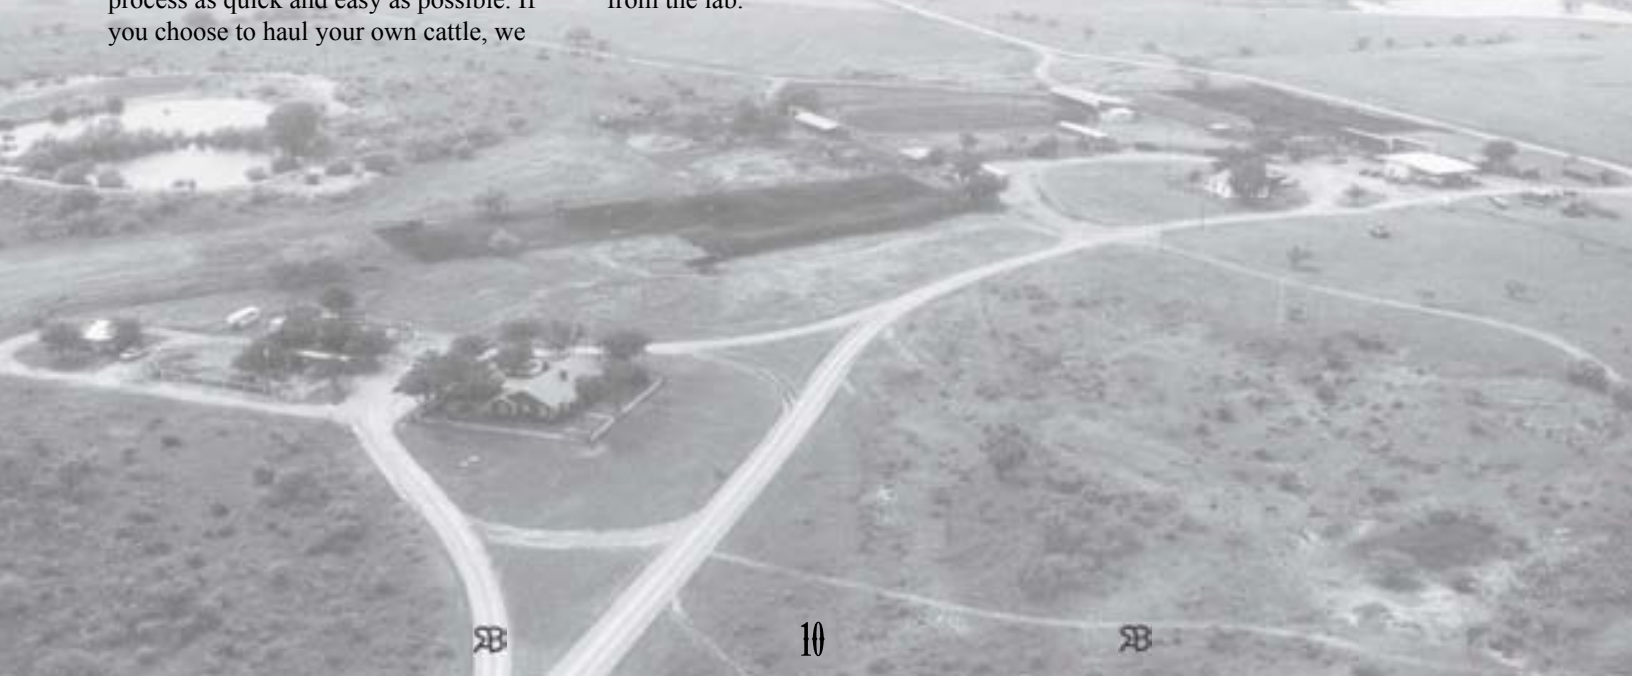

PREFERRED DELIVERY POINTS The destinations on the chart have been selected as "Preferred Delivery Points." Please select the two delivery points that are most convenient for you. Drop points may be adjusted after the sale time depending on the location and purchases of each buyer. Please keep in mind that this is a guide for "Preferred Delivery Points," not guaranteed delivery points. We will be glad to calculate the cost to additional delivery points after the sale. Please give us your home, office and mobile phone numbers so that we can contact you in regard to the delivery of your cattle.

RISK and INSURANCE

As outlined in the Terms and Conditions in the back of this catalog, all cattle become the risk of the purchaser as soon as they are sold. To protect your interests, shipping insurance is offered at settlement time. The cost of this insurance is minimal and we encourage all buyers to purchase it to cover the animal for at least two weeks.

HORSE LOAD OUT

Make arrangements with Todd McCartney M) 817-771-6013 at the close of the horse auction. They will be loaded near the area where they are displayed at our sale facility. You must settle up in the sale office where you will get 2 copies of your Bill of Sale. We will only load animals after receiving a copy of your Bill of Sale. We do not offer delivery service on horses.

MARKETING YOUR CALVES

Marketing Assistance

We want to help you take advantage of your genetic investments and have worked to help provide some opportunities for your calf crop out of RAB bulls. As we have continued to preach through the years....First, have cows that fit your environment. Second, invest in bulls that will sire calves to fit your target market. Third, make sure you let others know of your genetic investments so that you too can "top the market". There isn't anything we enjoy more than hearing from our friends and customers about their success / financial gains through the

use of RAB genetics. These two pages include the names and numbers of people who we have trusted through the years to take care of our customers. Whether you are selling them in the country, through the video auction or at the local salebarn....take advantage of these partnerships and your investment. Information on the breed association tagging programs are highlighted before each breed in this catalog. As a service to our customers, we will be glad to cost share the tags with you.

*It's just one of the many ways
we can say "Thank You".*

The Bulls in this sale offering qualify for the Superior Progressive Genetics program.

Superior Progressive Genetics (SPG) is an innovative Value Added Program launched by Superior Livestock Auction, R.A. Brown Ranch and their bull buying customers will be recognized by branding the R.A. Brown Ranch logo on load lots of cattle selling on Superior Livestock Auction's bi-monthly auctions live on RFD-TV as the calves sell. This is an outstanding opportunity to take advantage of progressive marketing to the most relevant national audience available in the cattle industry. In addition to the qualified lots being identified on television, the lots will also be branded as SPG in Superior Livestock Auction's print and web sale catalogs.

Direct Benefit to the Commercial Cattlemen:

- **Marketing.** Create instant quality recognition at point of sale.
- **Icon Placement.** The SPG icon and R.A. Brown Ranch logo will appear on-screen for the duration of the lot selling.
- **Return on Investment.** SPG is created to generate an "added value" for commercial cattlemen through progressive marketing and instant recognition by identifying load lots of cattle that are sired exclusively by the top genetics in the industry. The ultimate goal of SPG is to install a premium when qualified load lots of cattle are sold on Superior Livestock Auction.

RAB Planned Crossbreeding System 2012

Objective: Improve our customers profitability and sustainability in the beef production business.

Step 1. Identify the target markets.

Step 2. Provide simple genetic solutions to help customers optimize the use of superior genetics, heterosis and breed complementarity to hit the desired target markets.

Step 3. Provide marketing options for our customers.

Target Market		High Quality Market	Commodity Market	Replacement Females
Ideal Breed Make Up →		75% - 100% English 25% Continental	50% English 50% Continental	75% English 25% Continental add up 38% Heat Tolerance where needed

REWARDS GIVEN

SELECTION HELP AND STAR RATINGS ***

Calving Ease Rating

- 5 ***** Star Ultimate Calving Ease for any breed of heifers & cows
- 4 **** Star Elite Calving Ease for any breed of heifers & cows
- 3 *** Star Superior Calving Ease for well developed heifers and all cows
- 2 ** Star Excellent Calving Ease for heifers with Brahman influence & all cows
- 1 * Star Good Calving Ease for heifers with 50% or more Brahman & all cows

Growth Rating

- 5 ***** Star Ultimate Growth
- 4 **** Star Elite Growth
- 3 *** Star Superior Growth
- 2 ** Star Excellent Growth
- 1 * Star Good Growth

Carcass Rating

- 5 ***** Star Ultimate Carcass
- 4 **** Star Elite Carcass
- 3 *** Star Superior Carcass
- 2 ** Star Excellent Carcass
- 1 * Star Good Carcass

Our exclusive Star Rating System is designed to help summarize all of the data and simplify your selection process. It takes into account all information available, along with some cowboy common sense to rate each bull in the areas of Calving Ease, Growth, and Carcass. These ratings are consistent throughout the catalog so that you can even compare across breeds. EPDs are the best tools for selection within a breed. However they are not comparable across breeds yet.

The more stars they have, the better they are in that trait. Our Four-Star rating is the same as it has been in the past and designates elite bulls in each category, but this year I added a

Five-Star rating for the cream of the crop, the most ultimate.

Use the individual EPDs and their respective percentile ranks to most accurately determine which bulls can help you best meet your specific needs. For example when looking at the Growth Rating, if you sell your calves at weaning time then you should look more specifically at WW EPD. For Carcass, if you need more quality grade then put more emphasis on Marbling EPD.

You may notice that our Calving Ease ratings are much more conservative than what many breeders and breed associations may

recommend for use on heifers. We believe it is better to be safe than sorry. This doesn't mean that you never have to assist one at calving, because sometimes calves are born backwards or have a leg turned back. Even the best and most proven Calving Ease sires in the industry will get a big calf every once in a while. Our goal is to help eliminate calving difficulty to the best of our ability.

This Star Rating System is simply a tool to help you quickly find the bulls that fit your needs. Then you can take more time studying the details to find the bulls that best fit your more specific needs.

Feed and water is at one end of the pasture, while the only shade is 1/2 mile away....up a big, rough, rocky West Texas hill. Making this trip each day during the scorching heat of summer develops these bulls into hard footed, muscle-toned and physically fit athletes...ready to turn out and work for you, where ever you live. We affectionately call it "Two A Days".

Quarter Horses

Selling 20 weaned, halter broke colts and fillies

Wednesday, Oct. 9, 2013

5:00 p.m. R.A. Brown Ranch

20 weaned, halter broke colts and fillies

6 colts, 14 fillies

2 Bays, 3 Red Duns, 2 Palominos, 7 Sorrels, 6 Grays

By Three Outstanding Sires

Seven S Keota, Sun O Lena Ray, CGB Colonel Jazz

Since 1895, the ranch's horse priority has been to produce sound, good minded and athletic Quarter Horses that will carry its cowboys all day through tough terrain and extreme temperatures - until the day's work is done. If those are qualities you need in a horse - then come take your pick from this colorful, young line-up. Countless R.A. Brown Ranch customers have found over the decades, that horses bred and raised to carry working West Texas cowboys, can be trained to do just about anything! We'd have to agree. See you on Oct 9th.

*R.A. Brown Ranch was recognized by the AQHA with the coveted **Best Remuda Award** for having one of the nation's most outstanding band of working ranch horses!*

This AbiGrace daughter leads off the female sale - Lot 701

This AbiGrace son leads off the Red Angus bull sale - Lot 301

AbiGrace is truly a living legend. She has produced 164 progeny to date, 56 have been sold for an average price of \$9,484.00. She has 108 progeny selling in this sale and is on her way to become the first female in the breed to produce over 1 MILLION DOLLARS in progeny sales.

Longevity is built into this amazing line of ladies. AbiGrace is almost 13, her dam & grand dam produced through the ages of 15 & 17. Although AbiGrace's final resting place will be here on the ranch, we are selling this amazing female's genetic cell line. We are selling the right to clone the great AbiGrace. This will give you the opportunity to reproduce our favorite cow of all time as much as you want for years to come.

We are selling 100% and exclusive Cloning Rights. This allows the buyer to make one or as many clones of this great producing female as you desire. RAAA rules are in place to register all clones and subsequent offspring with no restriction on how many clones you can produce or how many offspring that you can produce from each of them. Her genetic cell line is already preserved and stored in two different locations insure the propagation of the breeds most prolific, most well-known and most valuable producer in the history of the breed.

BROWN TREMENDOUS Z7326
This Premier son sells as Lot 310 in this sale offering.

SELLING 25% REVENUE SHARING SEMEN INTEREST ON WED. EVENING, OCTOBER 9!

Premier has his first 17 offspring highlighting this sale and is bred to 39 females in this sale. There is no bull in the entire breed that can match his amazing EPDs. His sire is one of our favorites of all time who has produced some of our most valuable cattle. His mother was a powerfully made female that produced the most valuable ET litter in our history with 6 full brothers that all went into seedstock herds. They have all proven to be outstanding in their own right. We have only sold 20 units of semen thus far on this breed leading sire in auctions to support the Red Angus Juniors. The Shuey family from IA bought it all and produced Chloe who was named Grand Champion Female at the Iowa State Fair with her dam this year. Kelli and I like her so well that we bought ½ interest in her with Madison Shuey to help Kelli and I rebuild our registered herd with the most elite genetics available. Quite

a few of the pregnant recipients that Kelli and I are rebuilding with are carrying Premier embryos out of some of the top females selling in this sale.

This super heifer calf at Shuey's is sired by Premier and along with her dam was named the Champion Cow/Calf pair at the Iowa State Fair.

His genetics will definitely be part of our program moving forward. Brent Howard from Beaver, OK was the wise breeder who bought Premier in our 2011 sale. Benji & Lori White of Putnam, OK (who bought Redemption last year) just bought a 25% semen interest in him. Our family will remain a 25% semen interest owner in this great young sire. We are selling a 25% revenue sharing semen interest with no possession in Premier. We plan to begin marketing semen on Premier and our new partner who buys this semen interest will help us decide how best to do that.

RARE & VALUABLE SEMEN

This stuff doesn't grow on trees & the sires are no longer available. But the technology is here to day where we can use these rare straws to produce lots & lots of offspring. Last year I was able to find 1 straw on a bull that I really wanted to use & made 16 calves via embryo transfer.

As we inventoried our tanks we found some treasures that we didn't realize we had. It sure made me wish we had inventoried our tanks before now so that we could have used some of these industry greats.

This semen and MORE will be sold on Wednesday Night!

What a great way to start our 39th Annual Sale. Here is a bull that is so right for the times with his outstanding eye appeal, solid proven pedigree & breed leading EPDs from start to finish. His sire is 13 years old and earned the designation of producing the most registered Angus calves in the breed last year. We like Final Answer so much because of how practical and complete they are at increasing profit for the commercial cow man that sells his calves at weaning. His dam was a highlight in our sale last year going to Dale Moore of Cattlemen's Choice in OK. Our goal is to produce cattle that increase your profitability and sustainability in the cattle business. We believe this lead off bull can do that for you.

Guarantee is a really stylish bull that anyone will be proud to have in the front pasture. In addition to his eye appeal, he has a great set of stats for calving ease, growth and carcass traits that earned him 13 of 15 stars in our exclusive star rating system that helps boil down all of the information into a simple that you can use to compare any bull in this catalog regardless of breed. He also ranks in the top 1% of the breed for Weaning Value \$W which is the best tool I know of to determine the bulls that make you the most money if you sell your calves at Weaning. His sire, Protégé has proven himself to be a leader in the breed for multi-trait superiority including feed efficiency. We believe this trait is the next great frontier in the cattle business and have been working hard to make progress throughout our entire herd. NOTE: We are dispersing all of our registered cows - but we are staying in business and will continue to have bull sales for years to come. Buy with confidence knowing that we are standing behind every bull and female in this sale with our traditional guarantees.

This bull can add lots of profit potential to your next calf crop through increase pay weight in the right package. He has genetics for more growth than 99% of all other Angus bulls in the industry. If you are selling cattle by the pound and also keeping practically sized replacement females, then you need Maximilian. Even more exciting is that he ranks in the top 1% for \$B. Everybody likes Maximilian.

Top Dog earned his name for having the most complete EPD profile in the sale along with being a medium framed, wide based, square made bull with lots of depth & internal dimension. He earned a total of 14 Stars out of our maximum 15 star system for Calving Ease, Growth and Carcass. Add to that he feed efficiency potential and his great mother who will be a featured lot on Friday. Take your program to the next level of genetic superiority with Top Dog.

We are very impressed with this bull and used him to breed quite a few of the heifers selling in this sale. We bought him in March from Troy & Lorna Marshall in CO who we admire so much for the practicality of their cattle and for their friendship. Genetically he does all things well with 6 traits ranking in the top 5% of the breed and a total of 14 traits in the top 15%. His pedigree is stacked to excel in feed efficiency and we believe this is one of the great prospects to sell. He has been health tested & is ready to use his healthy experience to work for you.

Our dispersal is providing opportunities to you that we have never offered before. Scott leads off our entire group of Herd Sires that we are selling. His amazing EPD combination for calving ease, growth, marbling, muscle, \$W & \$B cannot be matched in the Sire Summary. He is a 5050 son with lots of body and muscle on a wide based, level topped, moderate frame with really sound feet and legs. He has sons and daughters selling in this sale and many of the females are bred to him as well. Take a look at his video on our website and we think you will like what you see. He has been health tested and is ready to go to work for you.

10% VOLUME DISCOUNTS

We are pleased to once again give a volume buyers discount. You will receive 10% off of purchases of 10 or more bulls. Please notify the clerk when you check out to receive your discount. This is just another way for us to say thank you for your trust in our program.

Absolutely is another outstanding young herd sire that we bought from our great friends at Knoll Crest Farms in VA. The Bennett family raises some of the best cattle in the business and you won't find any finer people. We are proud to be partners with them on these two herd sires. This is one of the first sons of Absolute ever produced. His first calf crop has just been weaned and the heifers sell in this dispersal on Friday. There is no other bull in the sire summary that can match his breed leading calving ease, growth and carcass numbers. He has been health tested and is ready to put his healthy experience to work in your herd.

Here is a young two year old that we used last year in our families program. Check out the amazing calving ease in this attractive young sire with excellent growth and \$Index Values. His sire was selected from our program by Select Sires and is selling lots of semen especially for commercial heifer breeding programs. We love the 3407N daughters for their elegance and productivity. This bull has been health tested and is ready to put his healthy experience to work in your herd. Here is another super calving ease sire that we have used successfully in our program He comes from the Marshall’s outstanding breeding program. He has sons and daughters in this sale and is bred to several cows selling on Friday. He has been health tested and is ready to put his healthy experience to work in your herd.

WOW - Take a look here!!! Here is a real meat wagon that is built as stout as a brick outhouse. What I love about Parker is his moderation of frame, tremendous muscle mass and capacity that you don't typically see with his proven pedigree. He consistently stamps his powerful type on his offspring and you can see several of sons and daughters selling in this sale. The only problem that we have to deal with on Parker is that he is too wide to fit in the chute. We purchased him our great friends at Gardiner Angus who have allowed us to be partners with us through the years on lots of our Angus cow herd. Parker has been health tested and is ready to put his healthy experience to work in your herd.

WEBSITE

Check out our website. Not only will you find interesting information, but if you're a data cruncher and want to save yourself time in searching through the catalog, you can customize your own searches at the site. Simply put in your specs and it will rank the bulls in the sale for you. Videos of each sale animal are available as well.

We have DNA tested all potential DDC cattle in this sale to help you select the cattle that best fit your needs. DDC bulls like this will be great to use on any red cows as well as any black cows that you know don't trace back to Mr. Angus or New Design 036.

The DDC condition is simple to manage - you just make sure & breed them to cows that are not DDC carriers. Carrier animals like this are totally normal in how they look and produce. Genetic Conditions like this have been managed very effectively in the dairy industry for years.

DNA technology is helping us to find all kinds of genes that have been in the cattle business for years and years, but we just didn't know it. Scientists in this field speculate that every animal (including all humans) have a few genetic conditions like this. It has not been a big deal. These bulls are fine to use and should produce normal healthy calves when bred to non DDC cows.

This bull leads us into a new pen of bulls with super calving ease that should work great for breeding heifers. Remember we have 50 more black Angus bulls that sell after lot 222 that are genetically some of the best black Angus bulls in the sale - they are just registered with the other Angus Association.

This bull starts what many say has been the best pen of bulls in our entire sale for several years. This year they are even better as we continue to grow our program of blending the best genetics of both Angus breeds - black and red. This bull may be one of the best Angus bulls we have ever produced. Yes he is a black Angus - just registered with the other Angus Association. The reality is that Red Angus & black Angus are considered the same breed & registered in the same association in virtually all other countries around the world. We don't see a need to discriminate. We just want to raise you the best cattle possible & strive to improve your profit through our improved genetics. These next 50 black bulls are a blend of the best in both Angus & Red Angus. They carry both a red gene & a black gene. When bred to straight black Angus cows you can expect 100% black calves just like all of the 220 Angus bulls up to this point. Breed them to black baldy cows & expect 75% black calves or breed them to red cows & expect 50% of the calves to be black & 50% red.

What a great bull to lead off this group. His tremendous growth, carcass, depth and thickness galore, make him one that everyone can be proud of. He can take your herd to new levels of genetic superiority. I suspect that several registered Red Angus breeders will follow our lead in producing new outcross genetics from proven Angus families.

Red Angus has been looking for new & improved outcross genetics in many places. Running off to other countries to find new blood lines

of Red Angus has proven to be a very disappointing experience. Our family has sampled a few of the very best from other countries - but we have discovered that the best avenue to find new improved outcross genetics is done by inserting highly proven & profitable genetics from our black Angus cousins right here in the USA. The other great thing about these is that when these bulls are bred to 1A cows the resulting red calves are 100% 1A Red Angus. Help yourself to this outstanding bull & many more right after him.

This powerhouse has loads of thickness and if you are looking for a scale presser this 5 star growth bull can do it. Just take a look at his 50K enhanced EPDs that rank him off the charts for growth. Combine Final Answer and Abigrace, with his top ranking HPG and CEM and you can imagine the phenomenal

LOT 251

set of females this guy can produce. His dam, AbiGrace should top the \$1,000,000 mark for value of her offspring sold by the time this sale is over. She has 108 total progeny in this sale and we have already sold lots of breed leading genetics out of her that have gone on to do great things for our customers. Longevity is built in here with AbiGrace who is almost 13 year old & her dam & grand dam produced through the ages of 15 & 17 years. This son leads off this sale with 6 traits in the top 1% to top 3% of the Red Angus breed. He is the first of 3 bull brothers and he was selected to be sampled within our Cooperator system to help get an early start on his progeny proof and promotion of his offspring. He is health tested and ready to put his healthy experience and superior genetics to work for you. If you are looking to improve your herd you'd be well served to load up these full sibs.

BLACK - RED ANGUS BULLS

You're going to love this bull if you like 'em loaded with muscle with worlds of volume. This guy is a carcass machine, just look at his outstanding 50K enhanced EPDs. Final Answer has been a breed leader for Angus registrations for years. When you look at the outstanding group of sons and daughters that we are offering this year it's certainly easy to see why. His dam AbiGrace needs no introduction as she is the breed stalwart that is the highest money producing cow in the history of the Red Angus breed. Read more throughout this catalog on this amazing breed leading lady and about the opportunity to clone her at the auction on Wednesday night after the bull sale.

This herd bull is deep, deep, with amazing muscle. He is one of the thickest bulls in the entire sale. What's even more impressive is the that his genotype just as impressive. Check out how he ranks in the top 26% or better ranking on 10 different traits with his 50K enhanced EPD profile? The breed leading Calving Ease Maternal in this group of bulls is very impressive.

Amazing balance from start to finish. He ranks in the top 13% or better on 12 different traits, making him one of the most genetically superior bulls that we have ever produced of any breed or color. It's no wonder that he achieved 14 out of 15 stars on our exclusive star rating system. Here's a bull that is deep, thick, good and loaded with options. He has the calving ease for heifers & yet breed leading performance to use on cows. We believe this gives you a greater and quicker return on your investment. The dam is off to a phenomenal start posting 107.7 MPPA on her first try. She sells as Lot 965 so you can improve your herd with her as well. Notice that grand dam is a maternal sister to the \$42,000 Jackhammer bull at ABS. Whether you are talking performance, phenotype or pedigree he has all the bases covered.

WOW! This bull offers incredible balance. Whatever your objective is he can get it done for you. The dam is a full sister to Paramount, Premier, Sovereign, Supreme and Summit. He too was selected to be used in our Cooperator Program so that we can bring new & improved outcross genetics to two years from now. He is health tested & ready to put his experience & genetics to work for you.

AbiGrace is an amazing mother. During supper after the bull sale, we are selling the right to clone her so that even more of her superior genetics can be produced. A wise cow man told me long ago that there are never enough of the really good ones.

Here is a age advantage bull that was used on our family's commercial cows. He offers tremendous marbling and REA along with great growth and superb fertility and longevity. He can pay for himself in a hurry. He is an Abigrace grandson and his sire has been the #1 \$B EPD bull in the Angus breed for most of the past 2 years.

WOW! This bull is a STUD! He is from one of the most impressive litters of AbiGrace embryo calves. They have been favorites of visitors to the ranch from the day they were born. He is much more than just an impressive physical specimen, he also has a super balanced EPD spread. Notice that he ranks in the top 25% of the breed on 10 separate traits. It is rare to accomplish such balanced trait superiority and it gets harder every day as people single trait select for maximums in a few traits. We are diligently striving to have our cattle be the best possible across the board for all economically relevant traits. We believe that our balanced-trait-superiority approach will increase your profitability and your enjoyment in raising high quality cattle. His sire is seeing tremendous use throughout the country do to his progeny's combination of depth, thickness and muscularity with

super calving ease and carcass. Not enough can be said about T-Rock's amazing dam, the great AbiGrace who has produced more dollars in offspring than any other Red Angus cow in history. This hoss of a bull has the opportunity, both physically and genetically to be breed great. It should be no surprise that his full sister has been selected as the first lot selling in our female dispersal. We named this bull T-ROCK in honor of our back-to-back State Champion Football teams that our boys have had the opportunity to play for. His dam has been a champion dollar producer for us and we believe that T-Rock can be a champion profit producer for you.

This bull can help produce a powerful FOUNDATION to help build your herds genetics to a whole nother level of genetic superiority! FOUNDATION is a direct son of the breed legend and highest dollar producing cow in the history of the breed, Abigrace. (We are selling her genetic line during supper after the bull sale & it is a highlight that everyone is talking about.) Take a look at the incredible performance spread on this bull; his birth to weaning and yearling EPD spread is amazing & he does it with outstanding carcass quality & ultrasound scans at the very top of our toughest contemporary group of embryo calves. It's a rarity to find a bull with this much marbling combined with the growth and total scope that this bull provides. His greatest merit might be his ability to produce superior females. Take a look at his pedigree. AbiGrace is almost 13 years old, her dam produced through age 15 & her grand dam produced through age 17. Combine this with his top ranking heifer pregnancy and maternal calving ease EPDs and you have a bull that can produce top females that can put you in the money for years to come. This bull's sire was a highlight in our 2011 sale where he sold to Broseco Ranch & Cedar Hill Farm. We are very impressed with his offspring which have helped earn him one of the top EPD profiles in the entire breed. Each year we select a few of our very best bulls to test in our Carcass Merit Program. We used this bull on commercial cows and will be getting his first offspring in January to help validate his superior genetics and get an early proof started from birth all the way through carcass. We believe this ads great value to this bull. All of these bulls that have been used are tested and ready to put their healthy experience and genetic superiority to work for you. Combine Paramount with AbiGrace and wow - you have an amazing FOUNDATION in which to produce great cattle.

SOLID ROCK is a full brother to the previous lot (FOUNDATION) and the RA 50K DNA test shows this one to have even more growth and marbling. They both rank in the top 4% in six traits each. I used both of them in our Carcass Merit Program to get a quick start on proving the genetic merit of these two great brothers. They represent the first calf crop from our amazing new sire, Paramount, who was a sale highlight in 2011 going to Phil English & Tom Woodward @ Broseco Ranch who teamed up with Dan & Alicia Stickel at Cedar Hill Farms to buy him. His sons and daughters are impressive and are sure to be highlights in this entire dispersal. We really like what the Nebula P707 sire line is doing for us & Paramount is one of his sons that is proving out to be a breed great. His semen has not been sold on the open market & there have only been 2 sons of Paramount to sell thus far. They were highlights in the Ludvigson sale going to John & Stephanie Jung for \$70,000 and another to Select Sires & Bieber Red Angus.

Deciding which of these full brothers to buy out of the great AbiGrace cow will be challenging. You may just want to hedge your bet and take them both home.

Danny Bradshaw

Webster defines EMINENT as: famous and respected with a particular sphere or profession. He can help you get there with 9 traits ranking in the top 11% of the breed or better. You are looking at a pedigree that is a who's who of R.A. Brown greats. The sire was a member of the strongest flush that we have ever

had at the ranch with Paramount, Premier, Sovereign, Supreme, Summit and X7877 all going into registered herds and selling for an average of \$13,833. His dam is a highlight in this dispersal as lot 708. If she was selling before her son, he would probably cost considerably more. She is a fantastic cow that is really easy to like in person & on paper. Here is your chance to own a full brother to a bull that is already in AI stud. EMINENT'S full brother, Brown Exclusive 2793Z is the first Paramount son in AI Stud where he is owned by Select Sires, Bieber Red Angus and Ludvigson Stock Farms along with our family. Take one look at this bull's type and enormous EPD spread and you will find that he doesn't need to rest on the coattails of his famous relatives. Whether you are looking for a bull to raise replacements (just look at those amazing Economically Relevant Traits, ERTs), herd sires, commercial bulls or are looking for a bull to immediately raise the carcass value in your herd, he can help you achieve all of these goals. He can help make your herd one of the most EMINENT in the Red Angus Breed.

LSF RAB EXCLUSIVE 2793Z // FULL BROTHER TO LOT 304

ILLUSTRIOUS HAS AN EPD SPREAD THAT IS UNMATCHED IN THE ENTIRE RED ANGUS BREED! No other animal comes close to his amazing combination of calving ease, growth, fertility, longevity and carcass traits, no other bull or

LOT 305

cow, proven or unproven. However you want to measure this unique genetic masterpiece he is up to the task. It is no surprise when you look at his pedigree filled with breed greats and many of which have not been available on the open market - Paramount, Revelation, & then back to the great AbiGrace cow herself as his great grandmother. I believe cattlemen will be knocking down your door to get at his sons. We realize and take it very serious that we are the top of the chain in beef production. That is one reason why we work so hard to produce top sires that produce top commercial bulls that produce top steers that produce top carcasses while at the same time producing productive, long lasting females. Out of all the positive things that ILLUSTRIOUS offers, his biggest upside just might be the daughters that he is capable of producing. Look at the superb ERTs that he offers and you can just imagine how they are going to be filled to the brim with fertility, calving ease and longevity not to mention the growth and carcass they will exhibit as well. Illustrious is defined as well known, respected and admired for past achievements. We believe this stud's future will be even brighter than his past and that he can take your herd to a whole nother paramount for performance, productivity and profit.

As we start to rebuild our nation's cowherd it is important to have females stacked with the traits of economic importance like this bull provides. With calf prices bringing what they are it is important to focus on the herd building traits now more than ever. It is good to have as much fertility, calving ease and longevity stacked into one as you can get. Check out the top growth EPDs to go along with excellent calving ease. He give you the best of both worlds. His elegant dam sells as lot 760 and she is a maternal sister Alliance at Dunn's Double Eagle and Synergy at Halfmann Red Angus & Silver Spur. Their mother is the famous, \$50,000 Abigrace T714. This is the first son of Premier to sell in this sale. Premier is a full brother to Paramount, Sovereign, Supreme, Summit & X7877, the most dominant flush in our history with all of the brothers going into registered herds for an average price of \$13,833. This is Premier's debut with outstanding sons & daughters selling in this dispersal as well as a 25% semen interest selling at dinner after this bull sale. We love the amazing stats that he has earned with this first calf crop as well as the great eye appeal that he puts into his offspring. We like Premier & this son we call CHANCELLOR so much that we used both of them heavily in our elite nucleus herd this year. What a great opportunity to own a tested & healthy herd sire that already has name brand recognition through the pregnancies he has selling in this dispersal.

We love the way our Premier sons are turning out. One look at this extremely high Quality rascal that is really deep, really long, really thick and really good and it is easy to understand why. Check out the massive spread from birth to weaning and yearling that this stud obtains. With EPDs like this you can breed him to every female on the place - cows and heifers. If you are looking to inject a huge amount of carcass quality into your herd this stud would be a good choice; just look at his IMF ratio and that MB EPD! These are exclusive genetics as well with Premier semen not being on the open market so step right up and help yourself and your herd to achieve all new levels of profit.

MY, OH, MY! I am having a flash back to last year because this bull reminds me so much of his 3/4 brother REDEMPTION who topped our sale for \$140,000 and has

become the #1 first year semen selling bull in the history of the breed. He is creating a wonderful return on investment for Benji & Lori White, Larry Walker, Don & Denise Ferrill and Genex. The semen marketability for this elite calving ease prospect is amazing because he also excels with breed leading fertility and other maternal traits, high marbling all stacked into a powerfully made, heavy muscled, moderate framed bull with worlds of capacity. He is a real wide body that stays fat on little more than scenery. He is so much more than just a heifer bull, he is a bull that does it all. His sire line is also one of the best udder improver's to come down the pike in years. This bull has worlds of potential to add productivity and profitability to this breed for decades.

MY, OH, MY AGAIN! This has to be one of the best heifer bull prospects to sell this year.

He achieves our highest 5 star rating for calving ease. He is so much more than just a heifer bull. I hope that you take special note of his amazing IMF ratio and off the charts MB EPD. If you are looking to help out your commercial bull buyers by incorporating high carcass quality into your

herd this stud would be a great asset to your program. What you might have to appreciate most about this great herd sire is his herd building traits. Imagine the high quality daughters he can produce that will be loaded with fertility, calving ease and longevity. His sire line is also one of the best udder improver's to come down the pike in years. His dam was a highlight in last year's sale going to the Alexander family in Roscoe TX to be their anchor donor in their outstanding herd where they produce bulls for us through our Cooperator program. Take a look at his maternal sisters selling as lots 789 & 790 & you will see the prepotent genetics stacked into this great young sire. Even more exciting is that he traces his maternal lineage back to Revelation and Abigrace and you have a sire that can be improving the productivity and profitability of your herd for decades. If you are looking to help out your customers by incorporating breed leading calving ease with high carcass quality and super eye appeal into your herd this stud can be a great asset to your program.

been available on the open market in our effort to gain genetic lead time and prove out the best sons we could find. When Beckton Stock Farms decided to severely limit the amount of P707 semen that they would sell, we chose to use that limited semen in our embryo transfer program to make as many of his offspring as possible. P707 semen has worked great for us. We love the daughters & we chose to heavily sample our best sons so that we could hopefully prove some to be even better than their Dad. So far we think he is better with what we are seeing in this outstanding Premier son and his other progeny like this bull's full sister who sells as the 4th female in this dispersal lot 704. We believe in mass multiplying the best genetics we can produce and that is why you are seeing the largest Nebula P707 genetic offering ever. One of the great things about Premier & his brother Paramount is that their maternal grandsire brings in some of the most heavily used proven genetics from the black Angus cousins. This is genetic lead time that we are now sharing with the entire industry. Buy them & use them and you can enjoy the benefits of these great genetics.

Take a look at the incredible depth & style this bull possesses. He is deep, deep, deep. I can just imagine the broody females that this guy is going to produce. His famous dam is still in production at the age of 13 and his grand dam and great grand dam produced until the ages of 15 and 17 respectively (and respectfully!). If you are looking for a bull to increase the pay weight in your herd and your customer's herds this is a herd bull for you. The dam needs no introduction and we are offering a tremendous opportunity to clone her. Read more about this breed leading lady throughout this catalog & our red female catalog.

This bull is deep, long, thick and man-o-man is he good. He is much more than just a growth bull; his daughters should be spectacular and loaded with fertility, calving ease and longevity. Notice his awesome carcass as well. How often do you see off the charts marbling combined with that much carcass weight? The dam is a full sister to our \$21,000 female sale topper from last year. The dam is also a full sister to our 2nd high selling bull last year, Brown Smithsonian who sold to the Eymard brothers in LA. Take advantage of these Premier genetics since this sale is the only way to access sons and semen to this great sire that has not been available on the open market.

Look at the length on this attractive made herd sire prospect. Deciding if Paramount or Premier is better is a tough decision. They are both fantastic! This son has a great birth to growth spread. Gone are the days of needing to give up performance and having throw away calves out of heifers, at least at the R.A Brown anyway. We have worked diligently to produce bulls that enable you to successfully breed cows and heifers to the same bull to get the calving ease you want and the performance that pays. DILIGENCE will also help in making profitable and easy breeding decisions since his ultra complete EPD profile allows you to breed him to just about any cow and make improvement. One look at his ERTs and I'm sure that his daughters will be profit centers for years to come. He is a full brother to lot 305 & full brother in blood to lot 309 as well is full sisters selling as lots 739-742.

Here comes another outstanding Paramount & this one is a 7/8 brother to the bull above. There has been no Paramount semen available on the open market and not that many sons available. In fact the first son sold this spring, LSF RAB Performance sold for \$70,000, and so as you can see, his genetics are at a premium. Take advantage of these unique genetics and get this guy home so you can elevate your herd to an all new level of genetic superiority. Whatever your herd needs help with he can most likely do it for you. This bull doesn't have a downside but I believe his strongest upside is the females he can produce. You'll be setting on a gold mine when you get a herd of his daughters that are filled with fertility, calving ease and longevity. Balanced trait superiority is what this bull has & what we have been string to produce.

I believe this bull may have the most complete genetic package in this sale. I long for the day when seedstock producers select genetics based on what is best for the industry based on sound science of breeding better cattle. There is no other animal in the entire breed that can match the overall genetic superiority this bull has swimming in his genes. Take a look at his solid proven pedigree that stacks generations of some of the best bulls in the industry. Paramount - possibly P707's best son who has super stats and is backed by 2 of the most influential bulls in the Angus breed; Pacific Pride - the #1 growth bull in the breed; Retail Product - one of the very best for producing outstanding females with super feet & fantastic udders; Beckton Lancer F442 - long time carcass leader; Make My Day - still one of the highest marbling bulls in the breed and known for his elegantly designed and highly productive daughters. The reality is that you don't have to use this bull - but we all will have to compete with those who do. He is really good.

WOW! Take a look at the incredible IMF ratio he earned. This amazing ratio gives him a MB EPD that is completely off the charts. He absolutely blows the carcass antagonisms apart by also earning top REA and CW EPDS. It's pretty easy to see why he earned 5 stars on carcass, the highest rating that we give. If you are looking to raise an elite set of females that excel in fertility and longevity combined with low birth and high growth without the need for excess inputs this really good rip needs to be going home with you. Oh, he happens to be a good lookin' bugger as well with incredible depth and thickness. Now, more than ever is the time to invest in quality genetics. Considering the all time market highs we are enjoying and the fact that they could go even higher, bulls like this can be the difference between just making a profit and earning a significant premiums.

When going to battle, you want someone you can depend on & this BATTLESHIP is that and more. We selected him to use in our Elite Nucleus herd so many of the females selling in this dispersal will be carrying his first offspring. His first calf crop will be in herds around the country to help prove his superior EPD package and promote the quality of his offspring, all of which should enhance his value to you. He can catapult your herd to an all new level of carcass dominance as well, just look at his outstanding ratios and top of the charts carcass EPDs. Notice that his paternal grand dam is Lana M666 and his dam is a Revelation going back to Abigrace so you can definitely imagine how good his daughters are going to turn out. Throw in his outstanding ERTs and you'll have a set of daughters that you can build a herd around with their top notch fertility, calving ease and longevity. He is the kind! Allow his tested & healthy experience work to your advantage.

BETTER ANSWER is the first red son to sell from the line of the great Angus sire Final Answer. I am confident that some of the next great Red Angus blood lines will come from outcrossing with some of the most elite and proven Angus genetics from our black cousins. When bred to 1A red cows, he will produce 1A red calves. What a great way to get fresh new outcross genetics. His sire comes from Len Stokes disciplined program in NM. I think you will really like this bull who is a maternal brother to Brown Covenant @ Select Sires. We selected this bull to use naturally in our Elite nucleus Herd, so many of the females in this sale will carry his service. Take advantage of the benefits you get from the name brand recognition and EPD proof that comes from this tested & healthy experience for this bull. We love our Final Answer cattle & I am confident that you will too.

Abigrace strikes again! You have to love the look on this long made bull that has excel-

LOT 324

lent depth and thickness. Even though he has an impressive phenotype his genotype is even better. Look at the great growth numbers that he obtains combined with superb fertility and maternal calving ease. He gets it done on carcass as well with an incredible MB EPD and check out that IMF ratio. His sire is a son of the immortal black Angus Final Answer (who is still alive and well at age 13) became the Angus breeds #1 bull for registrations in 2012. The dam needs no introduction except that her calves are exceptional to say the least. We are selling the right to clone the amazing AbiGrace during super after this bull sale.

Can you say superstar? Look at the great genetics coursing through this herd bull's veins. You have the best of the two Angus worlds in one pedigree. The dam is off to a fine start

with this son that is really thick, moderate and yeah, he's really good. The dam is royalty herself being out of the \$50,000 T714, which makes her a dam to Alliance at Dunn's Double Eagle and Synergy at Halfmann and Silver Spur. With his superb EPD line he has much more than just a famous pedigree. Take a look at his out of this world carcass and I believe you could make a lot of your commercial customers very happy if you offered them genetics out of this outstanding bull.

Next up is our first son to sell out of Synergy and boy is he a dandy. He's a moderate made dude with lots of depth and thickness. His EPDs have a big spread between birth and growth. If you are looking to add exceptional carcass traits to your herd this is certainly bull that can do it. We at the R.A. Brown have worked diligently to provide you, our customer, with genetically superior bulls that are at the top of the breed on a multitude of traits that allows you to breed any female in the herd so you can receive maximum return on your investment. Although we haven't created the perfect one yet we believe that our selection this year offers more bulls that are superior in more multiple traits and offers better phenotype than any previous offering, or any other offering that you may find.

LORDY! Look at the ratios that this moderate and deep made bull has across the board.

We'd love for all of our cattle to obtain ratios like this. These ideal ratios help to give him a great EPD spread. This bull excels at spreading the antagonistic traits of birth and growth. He is superb at ERTs as well. This guy should produce a heck of a set of females that will be loaded with fertility, maternal calving ease and longevity. Think of the profit that can be made with these traits. If one extra heifer of his gets bred ever year and his daughters average one more calf during their lifetime than your other herd sire just imagine the extra money this bull could earn for you. Remember that good genetics are not a cost - they are an investment.

Who made up the sale order? This bull could very easily have been at the very front of the sale. The truth is they can't all sell first and there are great bulls scattered all the way

through this sale. This bull excels at carcass and absolutely hammered his ultrasound. If your herd needs help on any carcass trait this is a bull that can help you plus he does it without hurting any of the other traits. Multi-trait superiority is a very powerful tool.

Here is our first son of Turbo, and he is moderate made, long, deep, thick and man is he good. If you are looking to produce a set of replacements I would strongly suggest this Turbo. He will put loads of fertility, maternal calving ease and longevity into his daughters. This bull offers and extraordinary amount of marbling, so if you or your customers sell on a quality grid, you'll be in business with this guy.

This is a direct son of the great Nebula P707 that was used in our system. He has been tested & is ready for his healthy experience to go to work for you. Don't let his work clothes fool you, he was used in some of the driest country in TX this year. This is a great bull to use on heifers for outstanding calving ease & moderate mature sized cattle that should be really low maintenance.

WEBSITE

Check out our website. Not only will you find interesting information, but if you're a data cruncher and want to save yourself time in searching through the catalog, you can customize your own searches at the site. Simply put in your specs and it will rank the bulls in the sale for you. Videos of each sale animal are available as well.

This bull is 87.5% Red Angus with just a little bit of Simmental. Like his Dam, he is registered with the American Simmental Association, however he is eligible to be registered with the Red Angus Association and we will gladly register him there if you would like us to after the sale. His calves will be eligible for the Red Angus Feeder Calf Certification Program.

Z138		2/22/12		2635857		EBCC				*****		*				

Everyone who looks through the SimAngus bulls is going to like Z138. Bred for growth muscle and volume, this homozygous black, homozygous polled _ blood bull ranks in the top 10% for Weaning and Yearling EPDs and the top 1% for REA EPD. Physically you won't miss him either. His structural soundness, muscle mass, rib shape and testicle size are impressive and he ranks near the top among the higher performing bulls offered in the sale. Simmental breeders remember that Z138 will sire purebred classified sons and daughters when bred to purebred cows.

TJ Sharper Image absolutely sires cattle that offer enhanced profitability and are easy on the eyes. Z9558 is a great example of that combination. Nearly ideal for structure, balanced and deep sided, he exudes quality. Additionally, he offers substantially more Calving Ease than the average Sharper Image son with solid percentile rankings for Growth, Marbling genetics, All Purpose and Terminal dollar index.

Z2963 is a performance machine! When you see this guy you won't be surprised that he easily ranks in the top 1% for Yearling Weight EPD. After all he ratioed 111 at weaning and 118 for yearling and just kept performing from yearling on. Finding him on sale day will be easy, just look for the heaviest bull in the pen and then you can appreciate his muscling, soundness, capacity and eye appeal as bonuses.

This 701T son is a little different from the first 3 SimAngus bulls in the sale because he is more moderate in his frame and softer. His breed leading values for Calving Ease (top 3%), Birth Weight (top 3%) and Marbling (1%) drive his API and TI dollar index values into the top 1% of bulls available for dollars of expected profit. Physically he is a sensible framed, big ribbed bull that offers tremendous fleshing ability and volume.

Z147 is another stick-out among the red offering. He is the deepest sided and easiest fleshing of all the red bulls and offers more of a traditional Simmental look of power, volume and rib shape. Back on mature Red Angus based cows, his crossbred daughters should be the kind you'll keep around for along time.

Z144		2/17/12		2635809		EBCC				*****		****			
WS Beefmaker just sires good cattle. Z144 exemplifies that. Solid for Calving Ease, Growth, Carcass and maternal traits this no holes bull will start the red portion of the SimGenetics sale. His balance, structure and total body thickness will impress too and are big reasons why he'll sell first. As a 3/4 blood he also offers a bigger heterosis kick for those wanting to use these bulls on higher percentage British bred cows.

FIGURING OUT COLOR

BB – Homozygous BLACK (all Black). Will always produce black calves unless bred to a light colored animal and then may produce a grey or smokey colored calf.

Bb – Heterozygous Black (1 Black gene & 1 Red gene). Black is dominate so the animal is black in color.

bb – Red (all Red genes) the animal is red and will not produce black calves unless they are bred to a black animal.

We have identified the color of each bull that we know at this time. Those that are just marked Blk are being DNA tested and the results will be available in our Sale Day Supplement and on our website prior to the sale. Below are the results you can expect from mating these different genetically colored parents.

Homozygous BLACK x red

All cattle sell with our TRADITIONAL GUARANTEES Terms & Conditions

All cattle sell with our traditional guarantees.

Except for those stated in the below terms and conditions, there are not warranties, either expressed or implied, as to merchantability or fitness for a particular purpose with respect to the cattle being sold at this auction. The warranties and guarantees are set forth in these Terms and Conditions are in lieu of all other warranties, either expressed or implied, and the remedies provided therein shall be the sole and exclusive remedy of the purchaser or any party claiming through purchaser, for any breach of warranty or guarantee therein provided, and all other obligations or liabilities.

BIDDING Each animal will be sold to the highest bidder. The auctioneer in charge will settle any disputes as to bids, and his decision on such matters shall be final.

TERMS of the sale are cash or check to the clerk at the conclusion of the auction. Animals will not leave until paid for in full.

PURCHASER'S RISK Each animal will be at the Purchaser's risk as soon as sold, but it shall be the obligation of the seller to see that animals are fed and cared for free of charge to purchaser, until loaded for shipment or until the expiration of (48) hours after the sale for animals being picked up by the Purchaser. Animals being delivered will be cared for at no charge until delivered.

ANNOUNCEMENTS & SALE DAY SUPPLEMENT Printed Material on the sale day supplement takes precedence over printed matter in this catalog. Announcements from the auction block will take precedence over printed matter on the sale day supplement or in this catalog. All animals will be sold by lot number as announced from the auction block. Every effort has been made to assure correctness of the catalog, and in most cases, information quoted concerning the animals is taken from the respective breed association's official records.

PERSONAL LIABILITY All persons who attend the sale do so at their own risk and the R.A. Brown Ranch, its employees, cooperators, consignors and all other person connected with the management of the sale, assume no liability, legal or otherwise.

IDENTIFICATION Seller offers each animal with a readable tattoo corresponding to its catalog designation and registration when applicable.

REGISTRATION TRANSFER If you want registration certificates transferred to you, this request must be made with the sale clerk at settlement on Sale Day or within twenty (20) days thereafter by written notification. After twenty (20) days, the transfer fees will be the responsibility of the Purchaser. All registration certificates will be withheld until the check clears the bank. Registration certificates will be mailed to you within ninety (90) days of date of sale. Inform the clerk when checking out if you need them sooner than ninety (90) days.

HEALTH CERTIFICATES will be furnished as soon as required testing allows for each animal sold for interstate transport.

BREEDING GUARANTEE 1. All animals are guaranteed to be breeders with the exception of: a) Injury or disease occurring to the animal after time of sale; b) Gross negligence or willful misconduct on the part of the purchaser; c) Animals shown competitively after being purchased in this sale. 2. Bulls are guaranteed breeders if not allowed to run with the herd until at least 14 months of age. Any bull which either a) settles 1/3 or more of the healthy cows he serves; b) is the sire of 20 or more animals; or c) settles cows by natural service and passes a fertility test made by a competent veterinarian during any 6 month trial (provided for in paragraph two of the section of these sale terms and conditions entitled "Options and Privileges of Return or Adjustment") shall be considered a breeder. Any guarantees with respect to the ability to

freeze semen shall be made by separate agreement between the Purchaser and Seller. 3. Safe-in-calf females have been examined by a competent ultrasound technician and are so guaranteed. All females that have been diagnosed safe in calf, have a projected calving date printed in this catalog or in the sale day supplement. All projected due dates and embryo sexing are best estimates only. 4. AI or pasture exposed females have been exposed, but are not guaranteed safe in calf. They are guaranteed to be breeders. 5. Open females have been examined open by ultrasound and are so guaranteed. Open females are guaranteed to be breeders or produce viable embryos if the buyer chooses to put the cow into embryo transfer. 6. Donor Females a) A female which has been used in an embryo transfer program and sells open is not guaranteed to be a breeder after date of sale unless by separate agreement between the buyer and seller. b) A female is not guaranteed to be a breeder after date of sale when that female is to be used, or attempted to be used in an embryo transfer program, unless by separate agreement between the buyer and seller. c) There is no guarantee as to the suitability of any female for embryo transfer.

SELLER'S SEMEN RIGHTS 1. Seller keeps a 50% revenue sharing semen interest and no possession, in every bull in this catalog unless otherwise noted in this catalog or in the sale day supplement. Future semen collections of the bull must be made known to all owners prior to collecting. These collections and costs will be divided according to each owner's interest, unless otherwise agreed upon mutually by all owners prior to collection of said semen. 2. On any bull in the sale which is collected in the future, Seller reserves the right to 100 vials of semen with registration rights and will pay his portion of the collection costs. 3. Further official terms for this section are described at the front of this catalog entitled "Retained Interests in Bulls."

OPTIONS & PRIVILEGES OF RETURN OR ADJUSTMENT

1. The following adjustments do not preclude the right of the Purchaser and seller to mutually agree upon other terms and conditions for settlement of any dispute. All claims for adjustment or refund must be made in writing either within six (6) months from the date of sale or no later than when the animal reaches 24 months of age, whichever occurs later, with the exception of claims involving parentage or defects. 2. All returns or refunds will be paid in the form of a replacement animal of similar quality or in credit for use on any products marketed by the seller. a) This credit will be limited to the purchase price less the salvage value of the animal b) Salvage value = Market price x greater of "current weight" as listed in this catalog/sale day supplement, or the animals current weight at the time of salvage. 3. In the event an animal is claimed to be a non-breeder, the animal may be returned to the ranch of the Seller, at Purchaser's expense, if in good physical condition, and the return is in compliance with the health requirements of the Seller's state. The Seller shall be entitled to a six (6) month trial period following the return of the animal in which to prove that the animal is a breeder. If at the end of six (6) months the Seller is unable to prove the animal is a breeder, the seller shall, at the option of the Purchaser, replace the animal with another of similar value or grant the Purchaser a credit on any products marketed by Seller. Either of these options shall be deemed full satisfaction and settlement. If the Seller proves the animal to be a breeder, it shall be the obligation of the Purchaser to take delivery of the animal and pay all expense incurred for transportation. 4. If the female sold as "safe-in-calf" proves not to be in calf (by the projected due date listed in the catalog or sale day supplement), the Purchaser may receive service from the bull previously used, if available or if the bull is not available the Seller shall be obligated to credit or refund the buyer \$350. Any adjustment provided for herein shall absolve the Seller from further liability, except in case such female proves to be a non-breeder. If a female represented as "safe-in-calf" at time of sale to a certain bull proves to have been bred to a different bull, the

Seller shall be obligated to make a satisfactory adjustment on the purchase (adjustments shall not be considered to be a breeding fee or an allocation of the purchase price to any unborn calf). Any expenses incurred for transportation shall be the responsibility of the Purchaser. 5. If a female sold as "open" proves to be with calf, the Purchaser may return the animal to the farm of the Seller prior to calving for a credit of the full purchase price or for another animal of similar value, whichever is acceptable to the Purchaser. It shall be the obligation of the Seller to bear any expense incurred for transportation.

GENETIC CONDITION, DEFECT & PARENTAGE GUARANTEE

1. Technology is helping identify numerous genetic conditions that have been in the general cattle population for many years. Those known today include: Arthrogryposis Multiplex (AM), Double Muscling (DM), Dwarfism (DW), Hypotrichosis (HY), Alpha-Mannosidosis (MA), Neuropathic Hydrocephalus (NH), Osteopetrosis (OS), Protoporphyrin (PR), Pulmonary Hypoplasia with Anasarca (PH), Syndactyly (SN) (Mule Foot), Tibial Hemimelia (TH), Neuropathic Hydrocephalus (NH), Contractural Arachnodactyly (CA) (Fawn Calf Syndrome), Parrot Mouth and Developmental Duplications Mutation (DD). Most of these are believed to be simple recessive in inheritance. These condition can be effectively managed by strategic DNA testing and avoidance of breeding carrier females to carrier bulls. All potential carrier of any of these defects will be tested with the results printed in this catalog or in the Sale Day Supplement. Animals that are tested free of the mutation are noted with an (F) after the abbreviation. Animals tested as a carrier of one of these genes are noted with a (C) after the abbreviation.

The parentage of the animals bred by the Seller is guaranteed to the extent that the animal is by the Sire and out of the Dam indicated on its registration paper. These guarantees are effective for a period of two years from the date of sale only under the following conditions. a) The Buyer shall notify the Seller in writing immediately upon the birth of a calf suspected of being defective or immediately after determination is made that such calf is defective, or if parentage is suspected or found to be in error. b) The Seller, at his expense, shall be permitted and provided, with reasonable opportunity, to obtain DNA samples of an alleged defective calf and its sire and dam for the purpose of DNA analysis to establish parenthood. In the case of suspect parentage, the Buyer at his expense, shall be permitted and provided with reasonable opportunity to obtain DNA samples of the animal in question and its sire and dam for the purpose of blood type/DNA analysis to establish parenthood. If sire or dam is indicated on the animals registration paper is proven to be in error by such analysis, the Seller shall reimburse Buyer for cost of such analysis. c) The animals will be returned by the Buyer to the Seller at the Buyer's expense; provided the animal meets the health requirements for the Seller's state. d) The replacement of an animal with another of similar value or the refund of the purchase price, in connection with a defect producing animal or an animal whose parentage is in error, shall be deemed full satisfaction and settlement.

2. In the event there is a dispute as to whether or not a calf is defective, or parentage is in error, "determination" referred to in Paragraph 1A above shall be made by a person or persons acceptable to both the Buyer and Seller. In the event that the Buyer and Seller cannot agree on the selection of such person or persons, then each of them shall appoint a representative to make the determination. In the event that such representatives fail to agree, a third person selected by the representatives of the Buyer and Seller shall make the determination.

RIGHTS AND OBLIGATIONS The terms and conditions of sale shall constitute a contract between the Purchasers and Sellers of each animal and shall be equally binding upon both. Any subsequent sale or resale of an animal constitutes a separate transaction.

GENETIC CONDITIONS

The American Angus Association has recently identified and is now offering a DNA test for the genetic condition called Developmental Duplication or DD. It is simple recessive in its inheritance and very few affected animals have ever been seen in the entire industry. In fact there have been a significant number of cattle that show no symptoms or negative affects what so ever, even in the homozygous state. This condition can be effectively managed by strategic DNA testing and avoidance of breeding carrier females to carrier bulls. To assist you with this we tested all potential carrier animals and printed the results in the catalog as DDF for animals free of this condition and DDC for tested carriers. NCA stands for Non Carrier Ancestry meaning the animal is free of this defect because of the DDF Free cattle that have been tested on both sides of its pedigree.

This condition has only been found in cattle of Angus origin. Therefore DDC bulls can be used with no problem on any cows that don't have Angus in them. If you have Angus influenced cows that could potentially carry this gene, then just buy bulls that are DDF or NCA. Those that do not have anything listed are animals that we found no potential carriers up close in the pedigree.

Enhanced DNA technology is helping scientists identify more and more of these genetic conditions that are believed to be found in all animals including humans. They are not new, just newly identified and with this information we can better manage breeding decisions to enhance your profitability.

Look for updates on this in our sale day supplement.
